Sun, 23 Dec 2018 17:29:00 GMT (PDF) Performance and Reliability Analysis of Web Server ... - HLOS Performance and Reliability Analysis and Targets 4 There is a much greater range of variability in CaSL performance by operator and by service group. Given that this is the case, there is a lack of targeted action evident in the SBP seeking to address the poorer performing operators. NR has stated that they would expect that this will be addressed as appropriate through the JPIPs, and ORR ...

HLOS Performance and Reliability Analysis and Targets - Performance and Reliability Analysis of Computer Systems: An Example-Based Approach Using the SHARPE Software Package provides a variety of probabilistic, discrete-state models used to assess the reliability and performance of computer and communication systems. The models included are combinatorial reliability models (reliability block diagrams, fault trees and reliability graphs), directed, acyclic task precedence graphs, Markov and semi-Markov models (including Markov reward models ...
